

EU-Style WTI Options

Contract Specifications

Description	The EU-Style WTI Option is based on the underlying ICE WTI Bullet (WTB) and will automatically exercise into the settlement price of the Bullet Future on the day of expiry of the options contract.
Contract Symbol	WUL
Contract Size	1,000 barrels
Unit of Trading	Any multiple of 1,000 barrels
Currency	US Dollars and cents
Trading Price Quotation	One cent (\$0.01) per barrel
Settlement Price Quotation	One tenth of one cent (\$0.001) per barrel
Minimum Price Fluctuation	One tenth of one cent (\$0.001) per barrel
Last Trading Day	Trading shall end two Business Days prior to the Expiration Date of the ICE WTI Crude Futures contract, i.e. 6th US business day prior to the 25th calendar day of the month preceding the contract month. If the 25th calendar day of the month is not a US business day the final trading day shall be the trading day which is the 7th US business day preceding the 25th calendar day of the month preceding the contract month. (A US business day is a day on which NYMEX is open for business.)

Contract Specifications

Option Style	<p>Options are European-style and will be automatically exercised on the expiry day if they are “in-the-money”. The swap future resulting from exercise immediately goes to cash settlement relieving market participants of the need to concern themselves with liquidation or exercise issues. If an option is “out-of-the-money” it will expire automatically. It is not permitted to exercise the option on any other day or in any other circumstances than the Last Trading Day. No manual exercise is permitted.</p>
Expiry	<p>19:30 London Time (14:30EST).</p> <p>Automatic exercise settings are pre-set to exercise contracts which are one minimum price fluctuation or more in-the-money with reference to the relevant reference price. Members cannot override automatic exercise settings or manually enter exercise instructions for this contract.</p> <p>The reference price will be a price in USD and cents per barrel equal to the settlement price of the ICE WTI Bullet Swap Future for the contract month. For these purposes "settlement price" means the 3rd to last business day prior to the Last Trading Day of the ICE WTI Futures contract month. When exercised against, ICE Clear Europe, at its discretion, selects sellers against which to exercise on a pro-rata basis.</p>
Option Premium / Daily Margin	<p>The premium on the EU-Style WTI Cash Settled Option is paid/received on the day following the day of trade. Option positions, as with Swap Future positions, are marked-to-market daily giving rise to positive or negative realized potential variation margin flows. Once the premium is paid there is no additional variation or initial margin payable by the buyer of the option. All open contracts are marked-to-market daily. Initial Margin is payable by the buyer and seller of the option, but for the buyer the initial margin will not exceed the value of the premium paid. In addition, the buyer may use the value of the premium of an in-the-money option collateral against other ICE OTC and ICE Futures Europe margin obligations at ICE Clear Europe.</p>
Strike Price Intervals	<p>Minimum \$0.50 increment strike prices. \$1.00 Strikes from \$20 to \$240. \$0.50 strikes 20 strikes above and below ATM. The at the money strike price is the closes interval nearest to the previous business day’s settlement price of the underlying contract.</p>
Contract Series	<p>Up to 36 consecutive months</p>
Final Payment Date	<p>Two Clearing House Business Days following the Last Trading Day.</p>
Business Days	<p>Publication days for ICE</p>
