

# Propane, Argus CIF ARA vs Brent 1st Line Future (in MTs)

## Contract Specifications

A monthly cash settled future based upon the mathematical result of subtracting the average of daily prices published by ICE for the location specified in Reference Price B from the average of the daily prices published by Argus International LPG for the location specified in Reference Price A.

For purposes of determining the Final Settlement Price, the Argus price will be converted each day to US dollars and cents per barrel, rounded to the nearest cent. The conversion factor will be 12.404762 barrels per metric tonne.
